

NaturNystTM

From Nature, For Nature

COMPOSTABLE PLANT-BASED PLASTIC-FREE

Eco-conscious Plant-based Tableware

Made From sugarcane Bagasse Pulp

www.naturnyst.com

ABOUT US

At **NaturNyst™** we believe — everyday choices can make a positive impact on both people and the planet. We offer eco-conscious bagasse tableware made from natural sugarcane fibre transforming a renewable by-product into elegant and functional alternatives to conventional disposables. Our 100% compostable, plastic-free, and food-safe products support healthier dining while reducing environmental impact. Every NaturNyst™ product reflects our commitment to quality, responsibility, and sustainable living. Unlike plastic, bagasse does not release harmful chemicals and helps businesses stay compliant with environmental regulations. Unlike paper, it is much stronger, leak-resistant, and suitable for hot, oily, and gravy-based foods. Choosing bagasse tableware means you get the convenience of disposables without the guilt — it's a practical, reliable, and environmentally responsible alternative for homes, cafes, caterers, and events.

MISSION

To transform responsibly sourced natural materials into everyday products that support healthier living while protecting people and the planet.

VISION

To build a world-class brand that empowers healthier, more sustainable living through responsibly crafted, nature-derived products.

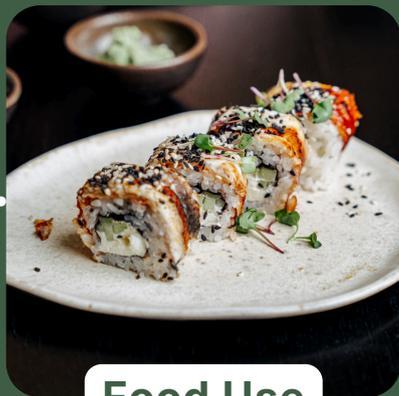

“What we use for minutes should not harm the planet for centuries.”
